

Type 1A User Training

Gallagher have two online training courses available for Type 1A users to ensure they have the necessary skills to operate a Gallagher Type 1A system.

Benefits of training include:

- Ensuring employees have the necessary skills to operate a Gallagher Type 1A system, a deeper understanding of the system reduces errors and ensures efficiencies.
- Confidence to communicate with your Channel Partner about system compliance and troubleshooting.
- Increased productivity, Gallagher Training sessions provide users the confidence and knowledge required to use the Type 1A user interface more effectively with best practice.
- Immediate ROI, with less time spent reviewing manuals.
- Certificate of achievement upon completion of the training course.

Courses

Standard User

This course will provide the attendee with knowledge to complete all tasks outlined within 3E3676 User Guide, Gallagher Type 1A User Interface for Standard Users. This includes but is not limited to the introduction to the Gallagher user interface, arming and disarming, acknowledging, and resetting alarms.

Privileged User

This course will provide the attendee with knowledge to complete all tasks outlined within 3E3675 User Guide, Gallagher Type 1A User Interface for Privileged Users. This includes but is not limited to the introduction to the Gallagher user interface, arming and disarming, acknowledging and resetting alarms, user administration, and reports.

Type 1A User Training Registration Form

Type 1A user training is free of charge and available for all Gallagher Type 1A sites.

Once the below information is submitted to Gallagher, the site will be verified, and a confirmation will be sent to the Channel Partner and the attendees will receive training credentials for our security portal for online training (SPOT).

If you have any questions please contact us at type1a@gallagher.com.
