Perimeter Starter Kits

Gallagher's networked perimeter system is available in starter kit format. In one easy purchase you have everything you need to ensure effective access control and a secure perimeter. Gallagher's Perimeter Starter Kits include all of the Gallagher hardware and software to get a small site up and running with perimeter protection, access control, and alarms functionality.

Features and benefits:

- Cost effective solution for businesses that require excellence in security on an economic scale
- Easy ordering – only one part number needs selecting to install an access control solution on -site
- No limits on expansion – sites installing a Controller 6000 Starter Kit can expand their system with standard Controller 6000's as required (only one Starter Kit Controller is permitted per network system)
- Quicker hardware installation – Gallagher mounts and pre-wires hardware within the Starter Kit Cabinet, saving installation time and money
- Easy software configuration – the Starter Kits have pre-configured templates available during Command Centre installation, leaving minimal software configuration required
- The included T20 Alarms Terminal makes managing alarms simple and extends operator control to wherever it is required

What is in the kit?
