Gallagher HBUS 8 In 2 Out Door Module

Unit Name _____

Unit Number _____

Connects to Controller _____

Tamper used ☐ (tick if used)

Input 1 _____ Output 1 _____

Input 2 _____ Output 2 _____

Input 3 _____

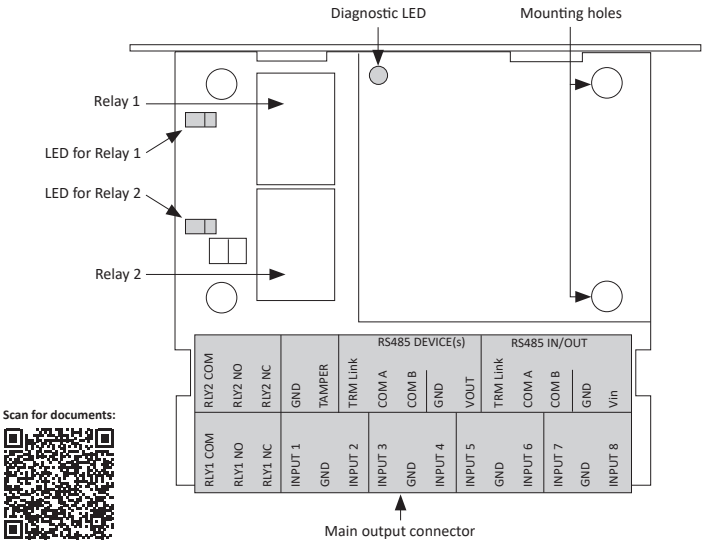

Input 4 _____ RS485 Device 1 _____

Input 5 _____ RS485 Device 2 _____

Input 6 _____ RS485 Device 3 _____

Input 7 _____ RS485 Device 4 _____

Input 8 _____

Scan for documents:

CAUTION: Voltages higher than 30 Vac or 42 Vdc must not enter the Gallagher Cabinet.

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions:
(1) This device may not cause harmful interference, and
(2) This device must accept any interference received, including interference that may cause undesired operation.

Component Decal: 3E3576 (R3)
